Special Issue

Effects of Active Oxygen Species on the Genetic Apparatus

edited by Diana Anderson and B.J. Phillips

Foreword
D. Anderson and B.J. Phillips (Great Britain) 1

(A) Chemical reactions with DNA and repair
Generation of oxy radicals in biosystems
M.G. Simic, D.S. Bergtold and L.R. Karam (U.S.A.) 3
Oxidized apurinic/apyrimidinic sites formed in DNA by oxidative mutagens
L.F. Povirk and R.J. Steighner (U.S.A.) 13
Characterization of hydroxyl free radical mediated damage to plasmid pBR322 DNA
J.E. Schneider, M.M. Browning, X. Zhu, K.L. Eneff and R.A. Floyd (U.S.A.) 23
Glutathione transferases: A possible role in the detoxication and repair of DNA and lipid hydroperoxides
B. Ketterer and D.J. Meyer (Great Britain) 33

(B) Damage in whole organisms
Endogenous DNA damage as related to cancer and aging
B.N. Ames (U.S.A.) 41
The involvement of reactive oxygen species in oral cancers of betel quid/tobacco chewers
H.F. Stich and F. Anders (Canada, F.R.G.) 47
Oxidative DNA damage caused by persistent peroxisome proliferation: its role in hepatocarcinogenesis
J.K. Reddy and M.S. Rao (U.S.A.) 63
Modifications of the effect of bleomycin in the somatic mutation and recombination test in *Drosophila melanogaster*
H. Cederberg and C. Ramel (Sweden) 69

(C) Mammalian/human cells in vitro
Pathophysiological mechanisms of active oxygen
P. Cerutti, R. Larsson, G. Krupitza, D. Muehlematter, D. Crawford and P. Amstad (Switzerland) 81
Effects of lethal exposure to hyperoxia and to hydrogen peroxide on NAD(H) and ATP pools in Chinese hamster ovary cells
J.J.P. Gille, C.G.M. Van Berkel, E. Mullaart, J. Vijg and H. Joenje (The Netherlands) 89
Mutagenic effects of TPA-induced clastogenic factor in Chinese hamster cells
I. Emerit and M. Lahoud-Maghani (France) 97
Microsome-mediated clastogenicity of butylated hydroxyanisole (BHA) in cultured Chinese hamster ovary cells: The possible role of reactive oxygen species
B.J. Phillips, P.A. Carroll, A.C. Tee and D. Anderson (Great Britain) 105
Aroclor-1254-induced rat-liver S9 causes chromosomal aberrations in CHO cells but not human lymphocytes: A role for active oxygen?
D.J. Kirkland, R.R. Marshall, S. McEnaney, J. Bidgood, A. Rutter and S. Mullineux (Great Britain) 115
Is lipid peroxidation associated with DNA damage?
G. Brambilla, A. Martelli and U.M. Marinari (Italy) 123
Correlation between the anti-oxidant enzyme activities of blood fractions and the yield of bleomycin-induced chromosome damage
M.L. Larramendy, M.S. Bianchi and J. Padrón (Argentina) 129
The protective effects of L-ascorbic acid and DL-α-tocopherol on cultured rat embryos treated with xanthine/xanthine oxidase
A.J. Francis, D. Anderson, P.C. Jenkinson and D.V.W. Parke (Great Britain) 137

0027-5107/89/$03.50 © 1989 Elsevier Science Publishers B.V. (Biomedical Division)

Studies on the ability of smoke from different types of cigarettes to induce DNA single-strand breaks in cultured human cells
S. Fielding, C. Short, K. Davies, N. Wald, B.A. Bridges and R. Waters (Great Britain) 147

(D) Bacteria
Mutagenicity of active oxygen species in bacteria and its enzymatic or chemical inhibition
S. De Flora, C. Bennicelli, P. Zanacchi, F. D'Agostini and A. Camoirano (Italy) 153
Methylreductic acid and hydroxymethylreductic acid: oxygen radical-forming agents in heated starch
H. Kasai, M. Nakayama, N. Toda, Z. Yamaizumi, J. Oikawa and S. Nishimura (Japan) 159

[*end of special issue*]

Research Papers
Mechanism of chromosome aberration induction in the mouse egg fertilized with sperm recovered from postmeiotic germ cells treated with methyl methanesulfonate
Y. Matsuda, I. Tobari, M. Maemori and N. Seki (Japan) 165
High-resolution cytogenetic characterization of the L5178Y $TK^{+/-}$ mouse lymphoma cell line
J.R. Sawyer, M.M. Moore and J.C. Hozier (U.S.A.) 181
High-resolution cytogenetic analysis of L5178Y $TK^{+/-}$ 3.7.2C cells: variation in chromosome 11 breakpoints among small-colony $TK^{-/-}$ mutants
J.C. Hozier, J.R. Sawyer and M.M. Moore (U.S.A.) 195
The genetic consequences of DNA precursor pool imbalance: sequence analysis of mutations induced by excess thymidine at the hamster *aprt* locus
G. Phear and M. Meuth (Great Britain) 201
Potentiation of bleomycin-induced chromosome aberrations by the radioprotector reduced glutathione
A. Chatterjee, M. Jacob-Raman and B. Mohapatra (India) 207
Frequency of variant erythrocytes at the glycophorin-A locus in two Bloom's syndrome patients
S. Kyoizumi, N. Nakamura, H. Takebe, K. Tatsumi, J. German and M. Akiyama (Japan, U.S.A.) 215
Studying DNA mutations in human cells with the use of an integrated HSV thymidine kinase target gene
M. Giphart-Gassler, A. Groenewegen, H. Den Dulk, P. Van de Putte and J.G. Tasseron-de Jong (The Netherlands) 223
Overlapping direct repeats stimulate deletions in specially designed derivatives of plasmid pBR325 in *Escherichia coli*
E. Balbinder, C. Mac Vean and R.E. Williams (U.S.A.) 233
Repair of ozone-induced DNA lesions in *Escherichia coli* B cells
C. Hamelin and Y.S. Chung (Canada) 253
A comparative study of the antimutagenic effects of antioxidants on chemical mutagenesis in *Drosophila melanogaster*
R.I. Goncharova and T.D. Kuzhir (U.S.S.R.) 257
Molecular and classical genetic analyses of *his-3* mutants of *Neurospora crassa*
I. Tests for allelic complementation and specific revertibility
L.K. Overton, J.S. Dubins and F.J. De Serres (U.S.A.) 267
Improvement of carcinogen identification in BALB/3T3 cell transformation by application of a 2-stage method
A. Sakai and M. Sato (Japan) 285
X-Ray-induced specific-locus mutations in the *ad-3* region of two-component heterokaryons of *Neurospora crassa*
IV. Irreparable mutants of genotype *ad-3A* and *ad-3B* result from multilocus deletion and an unexpectedly high frequency of multiple-locus mutations
F.J. De Serres (U.S.A.) 297
X-Ray-induced G_2 arrest in ataxia telangiectasia lymphoblastoid cells
M. Tatsuka, O. Nikaido, K. Tatsumi and H. Takebe (Japan) 321

Letters to the Editor
Induction of specific-locus mutations in male mice by diethyl sulfate (DES)
U.H. Ehling (F.R.G.) 329
Reply to U.H. Ehling
W.L. Russell (U.S.A.) 331
